

mafi

exceptionally engineered wide-plank wood floors

11 reasons why you should choose a mafi floor?

1. 100% compatible in high moisture areas including bathrooms
2. 100% compatible with underfloor heating
3. No sanding on installation or for the life of the floor is required
4. Natural oil finish allows the timber to breathe and naturally filter the air in your home
5. Same Timber on the surface and on the bottom of the wide-plank
6. Centre layer is made from soft conifer timber with the grain running across for stability
7. Tongue and groove on all sides for easy and superior finish
8. Excellent and permanent stability through superior wide-plank engineering
9. Full turn-key service offering supply, installation and maintenance
10. Can be installed on concrete, joist or floating floor
11. FSC 100% Accredited - Mafi wide-plank wood floors are the first timber planks in Europe to achieve the FSC 100% accreditation making them environmentally friendly and come from 100% renewable managed forests.

Oak Character, brushed, natural oil
